Temperature Switch TSP 02

Temperature switch made of stainless steel 1.457, for liquids, with 1 switching point and variable tube length

- Temperature switch made of stainless steel
- Custom length
- Process connection G½ "
- Economical execution

<<<<<<<<<<Delivery time approx. 3 weeks

Switching ranges	+50°C up to +150°C
Material	Stainless steel
Connection	G ½"
Tube length L	variable, max. 3000 mm

More information:

- Economical temperature moritoring of liquid media
