

Magnetic Float Switch with Optional Temperature Output, Type RLS-4000

- Combination float switch / PT100 / PT1000 or bimetal switch
- Temperature range: -30 °C to max. + 80 °C
- Electrical output: 4-20 mA (level) and resistance output (temperature)
- Cable outlet
- Process connections: G 1½“, G 2“, flange DN50 PN16
- Degree of protection IP66
- Approval for the hazardous area

Delivery time approx. 4 weeks

Measuring principle	Float switch (level), PT100/PT1000 or bimetallic switch (temperature)
Electrical output	Switch contact (level), resistance output or switch contact (temperature)
Process connections	G 1", G 1½“, G 2“, flange DN50 PN16
Electrical connection	Cable
Temperature range	-30°C up to max. +80°C
Protection	IP 66
